

2ND WEST AFRICA LPG EXPO - NIGERIA 2022

MARCH 2nd -3rd 2022

FEDERAL PALACE HOTEL & CASINO

EVENT OVERVIEW

Gas Academy together with Nigeria LPG Association is organising the 2nd West Africa LPG Expo on 2nd - 3rd of March 2022 at the stunning Balmoral Exhibition Centre within the Federal Palace Hotel, Lagos. Visitors are expected to attain momentous insight of the LPG market and network with more than 3,000 LPG professionals across the value chain.

The 2nd West Africa LPG Expo and Conference – Nigeria 2022 would be held a week before the 3rd West Africa LPG Expo and Conference – Ghana 2022. Such arrangements would allow international participants to take advantage of the close proximity of the two countries thus reducing the travel time and costs for their business development needs in this region.

Nigeria is one of the fastest growing LPG markets with more than 20% average growth per annum for the past 10 years. In 2020, Nigeria recorded a national LPG consumption of 89.91 thousand MT (PPPRA, 2020), which is more than the 5 million consumption targets from 2018 to 2022.

Nigeria is also one of the largest markets for new LPG cylinders and equipment. The President of Nigeria LPG Association (NLPGA), Mr Nuhu Yakubu divulged that LPG penetration would increase from current 7.5 million cylinders to 10 million cylinders yearly (Vanguard News Nigeria, 2020).

Nigeria LPG market definitely holds incredible potential post Covid-19 and will be posed as the golden emerging market in 2022.
