# MEDICA 2021 - Top in all areas

Here the whole world of medicine meets.  
A must for anyone wanting to experience tomorrow

# Welcome at MEDICA!

## See tomorrow's medical technology today! Be part of the medical technology community!

**MEDICA is the world's largest event for the medical sector.** For more than 40 years it has been firmly established on every expert's calendar. There are many reasons why MEDICA is so unique. Firstly, the event is the largest medical trade fair in the world - it attracts **several thousand exhibitors from more than 50 countries in the halls.** Furthermore, each year, leading individuals from the fields of business, research, and politics grace this top-class event with their presence — naturally alongside tens of thousands of national and international experts and decision-makers from the sector, such as yourself. An extensive exhibition and an ambitious program — which together present the entire spectrum of innovations for outpatient and clinical care — await you in Düsseldorf.

In addition to the professional "**MEDICA Forums and Conferences**" have become an integral part of the trade fair. Forums and several special shows on varied medical-technological topics are concisely presented in the halls as an attractive complement to the trade fair. E.g. **MEDICA CONNECTED HEALTHCARE FORUM with MEDICA App COMPETITION, MEDICA HEALTH IT FORUM, MEDICA ECON FORUM, MEDICA TECH FORUM and MEDICA LABMED FORUM.** The conferences are the **German Hospital Conference (the leading communication platform for decision-makers in German hospitals), the MEDICA MEDICINE + SPORTS CONFERENCE, the MEDICA PHYSIO CONFERENCE and the International Conference on Disaster and Military Medicine (DIMIMED).** Another highlight is the **MEDICA START-UP PARK** where innovative young companies present the trends in the medical technology of the future.

To the MEDICA Forums and Conferences

## Focal topics / segments

### Imaging and diagnostics / medical equipment & devices

@panthermedia.net/SimpleFoto

In halls 9-14 you will find the entire range of medical technology and electromedicine as well as surgical equipment, medical furniture and special furnishings for hospitals and practices. Use the overview of the market for specific information and discussions.

### IT systems and IT solutions

@panthermedia.net / everythingposs

Hall 13 displays the entire medical IT including important interface aspects in an interdisciplinary way. You will find the entire range of innovations in data collection and networking plus the major topics of eHealth, mHealth and pHealth. It would be difficult to find better quality anywhere else.

News on "IT systems and IT solutions"

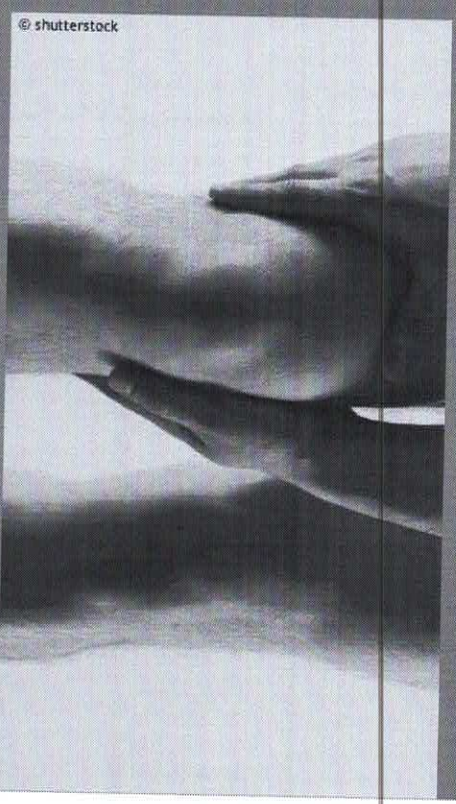

## Laboratory equipment / diagnostic tests

The performance of laboratories and the entire range of clinical analysis technology are the key topics in the halls 1 and 3. Here, employees and decision-makers will get access to one of the worldwide largest markets for laboratory technology and diagnostic tests. You will not find a more comprehensive perspective anywhere else.

News on "Laboratory equipment / diagnostic tests"

## Physiotherapy / orthopaedic technology

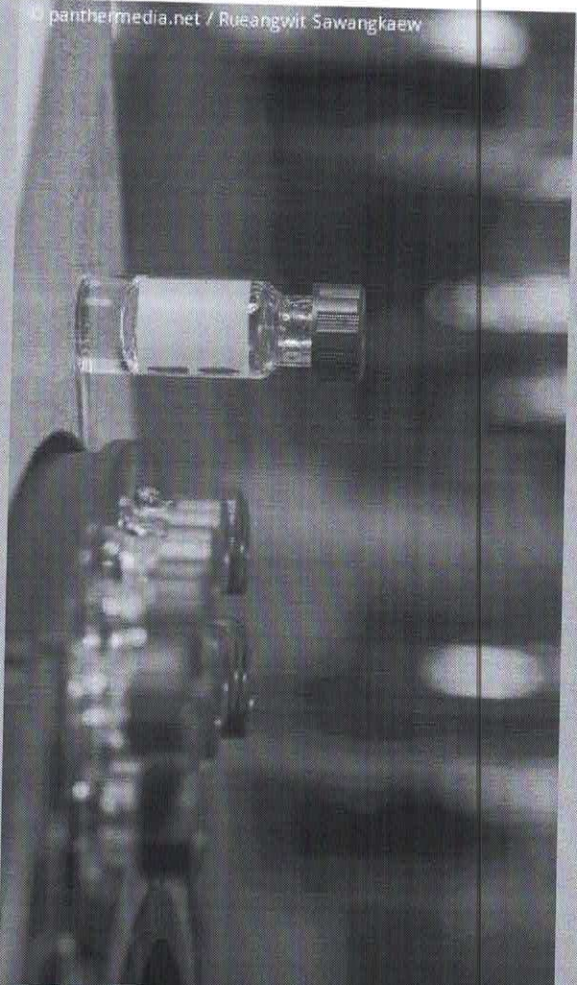

Halls 4 and 5 guide you into the comprehensive range of physical therapeutic products, equipment and applications. You will also find a large number of representatives of innovative prosthetics, leading orthotics and state-of-the-art rehabilitative technology. Take advantage of this high density of information!
