## POLICE EXPO

Marking its 4th anniversary this year, Korea Police World Expo is a venue for fostering the security industry with 150,000 police officers to introduce the latest products and technologies in the security and safety industries. Korean National Police Agency's R&D project, public relations officer, and citizen-participating auxiliary events are held together to provide a panoramic view of the high-tech security industry. It is a place for communication between manufacturing/distribution companies, government agencies, local governments, and related cooperative organizations, as well as Korean citizens.

## SECURITY EXPO

It is an exhibition launched by expanding the crime prevention and security item group, the most important element of the all-security industry. Security technology is evolving day by day. In particular, digital security issues are increasing more rapidly due to the digital transformation after the COVID-19 Pandemic situation. Security Expo will introduce the latest security technologies and products and become the best business platform in the domestic security industry where both private and government security-related buyers gather.
