Connect with Korean and Foreign Buyers at KIMES

The exhibition that various medical experts participate in

KIMES offers a great opportunity for you to meet numerous buyers from domestic and overseas who have a strong power to purchase at one place. Also, including officials in medical institutions, academic industry, research institutions as well as hospitals such as oriental doctors, veterinarians, dentists, nurses, radiologists, physical therapists, medical laboratory technologists, pharmacists and emergency medical technicians.

KIMES and KOTRA will connect you with credible buyers

KIMES is jointly working with KOTRA to support overseas expansion of domestic medical device manufacturers through a large scale medical device export conference (GMEP). We have secured influential buyers via 127 KOTRA trade centers around the world, with whom 1 on 1 consultations will open up opportunities to enter overseas markets.

The largest-scale platform showcasing world's advanced medical technology.

The new AI technology and smart healthcare industry, that are grabbing global attention, is a future growth engine industry which is supported by the government. The government is drawing up mid to long-term plan and a rational standard to foster the industry's related businesses. Against such backdrop, KIMES will guide you the trend of future medical technology serving as the largest business network that shows global leading companies' creative medical technologies.

KIMES Live!

In the new normal era that has brought about a new business environment, we offer the marketing platform, 'KIMES Live!' that supports the online marketing of participating companies. Run as a YouTube live broadcast, a professional reporter will visit the booths in person and introduce cutting edge medical device exhibits in both Korean and English for buyers and customers who are not able to physically attend the KIMES exhibition.
