About Event
Pyongyang International Trade Fair (PITF)

PITF is an all-embracing trade show to be organized on the largest scale in the DPRK and it is one of the prestigious international economic assemblages in northeast Asia which is committed to developing the external economic relations among different countries of the world in the vision of "Independence, Friendship, Co-development and Co-prosperity".

PITF is open with splendor amid home and abroad expectations and concern every spring and autumn. So far, PITF Spring has been held 24 times and PITF Autumn 18 times.

PITF is a forum to facilitate trading, investment, construction and other economic and sci-tech exchange and investment attraction among the DPRK and different countries and it also arranges tours to the local business and scenic spots within the country for entertainment.

PITF which enjoys more and more concern of many countries with passing days will make a positive contribution to the better friendship and the closer economic and sci-tech exchange and cooperation among different countries in the principle of the complete equality and mutual benefits, conducive to the regional and global economic development.
