

The Strengths and potential of the TPH to expand, has decided, in 2012, a group of companies to network and the location of community "technology Park Humboldthain e. V." was founded.

You grow with us!

*You can inform yourself about the goals and tasks of the network, about the investment and participation in the Association, and promotion opportunities.*

The Association promotes the revitalization and strengthening of the historic business and science location "technology Park Humboldthain" as a future-oriented place for innovation,

- Representation of interests of the member companies and other interests (also related to the public space) through an active dialogue with the institutions of science and industry, the

research, technology, and media. The goal is to increase its attractiveness for business and science, as well as for the life, Work and Learn. This claim is backed up by the following objectives of the Association:

- Networking of companies, research institutions, property owners, and other institutions at the site to take advantage of synergy effects.
- Public relations for holistic and sustainable image of the TPH.

media, the district administrative center and the state of Berlin.

- Strengthening the technological orientation of the site through cooperation and integration with institutions from academia, research and teaching.
- Collaboration with and support of schools, colleges and universities, with the goal of winning support in the training of qualified Junior staff.

# RESULTING - WOLF
